The figure consists of three separate line graphs sharing a common x-axis representing years from 1990 to 2000.

- Graph 1 (Top):** A relatively flat line starting at approximately 100 in 1990, rising slightly to about 105 by 1995, and then remaining constant through 2000.
- Graph 2 (Middle):** A line starting at approximately 100 in 1990, rising steadily to about 125 by 1999, and then dropping sharply to around 110 in 2000.
- Graph 3 (Bottom):** A line starting at approximately 100 in 1990, dipping to a minimum of about 95 in 1991, then fluctuating between 95 and 100 until 1995, after which it rises to a peak of about 105 in 1998, before ending at approximately 100 in 2000.

Below the graphs, the numbers 25 and 104 are written, likely indicating specific values or labels for the data series.

L'individuazione dei singoli beni culturali isolati è contenuta nel

L'individuazione della classificazione dei valori storici, architettonici ed ambientali dei singoli edifici è contenuta nella Tavola "P401 - Classificazione degli edifici" in scala 1:1000.

A vertical column of 40 empty square boxes for writing answers. The boxes are arranged in 5 rows of 8 boxes each. The first 39 boxes are on a light orange background, while the last box is on a white background.

	Conche insediate dell'alto Adret
	Tratto di valle con piana e terrazzo di Valtournenche
	Conche a pascolo di Cimes-Blanches

	VD - Paesaggio di vallata a sviluppo discontinuo
Conca pascoliva di Chenell	VP - Paesaggio di valle con piana
	PC - Paesaggio di conche a pascolo

AC - Paesaggio di conche d'alta quota

ved. Art. 25 delle NTA	

A geological column diagram illustrating lithology and thicknesses. The column is divided into several units by horizontal lines. The top unit is light orange and labeled '135'. Below it is a greyish unit with a series of small square symbols. A thick black line marks the boundary between these two units. The next unit is light orange and contains a series of larger square symbols. A thin black line marks the boundary between this unit and the previous one. The following unit is light orange and contains a series of smaller square symbols. A thin black line marks the boundary between this unit and the previous one. The bottom-most unit is light orange and contains a series of very small square symbols. A thin black line marks the boundary between this unit and the previous one. To the right of the column, there is a large white rectangular area containing a circle. At the bottom right, there is a small label '471'.
